

Hello _____
My name is Jane and I am going to work
with you this morning/afternoon.

I usually see children who have a problem
showing how smart they are. This means
that I help them with their writing and
their talking.

Today we will do some activities such as:

- Computer talk
- Picture games
- Yes/no quiz
- The 'What could you say?' game

When I have chosen an activity it will be your turn to choose an
activity to do.

I will have some sheets of paper with pictures and words on so
that you can point to show me how you are feeling or how I can
help you better. You can use these sheets if you cannot find the
words to tell me aloud.

You may need to have a rest now and then. That's OK.

I hope you like visiting me and my clinic.

Today at Jane's place the work was...				
Easy	OK	Boring	Interesting	Great

Jane said that I...				
Tried very hard	Let Jane help	Did good work	Did great work	Did good listening

too fast	cannot think	too slow	boring
I didn't understand	say that again	too noisy	listen
yes	don't know	I need a rest	no

When I go to see Jane she is usually happy if I can just try to do my best listening and my best talking. Sometimes things Jane asks me will be easy and sometimes they will be tricky. That's OK. Jane is here to get to know me and will to give me help when I need it.

The displays in these sheets can be adapted with pictures or symbols as necessary. Please use them as you see fit when visiting Options.
